Automated Metadata and Content Distribution

With Onixsuite, sending quality metadata and content to your trading partners could not be easier. Set up automated feeds to Amazon, Apple, Baker & Taylor, Google, Ingram, Nielsen, and hundreds of other channels in an instant. Onixsuite keeps track of changes made to your catalog and automatically sends out any modifications.

Depending on the data receiver's requirements, you can share your metadata in ONIX 2.1, ONIX 3, Excel, or CSV formats.

As well as metadata, Onixsuite manages all of your digital content too. Upload cover images, excepts, even full content files for print-on-demand. Any new or modified content is sent out automatically.

Letting Onixsuite take care of your metadata and content feeds allows you to minimise errors, free up time, and ultimately sell more books!

The Onixsuite Advantage

- Automated exports of ONIX to unlimited trading partners
- ✓ User friendly catalog management tool no need to understand ONIX
- Identify errors and weaknesses in your metadata before it goes to partners
- Cloud-based system allows access from anywhere with a web connection
- ✓ Website included to display and verify your metadata

- ✓ Subject classification: BISAC, BIC, CLIL, Thema and others included
- Easy to maintain up-to-date pricing, rights and availability information
- ✓ Send your whole catalog or just selected records to partners
- Include external media: images, video, audio, and PDF or ePub
- Import and convert ONIX 2.1 to 3.0 for export. Ability to export ONIX 2.1 or 3.0.

And more...

Please contact us if you have additional questions or would like to enquire about your specific needs. Talk to a representative today, sign up at onixsuite.com or email sales@onixsuite.com for more information. We look forward to hearing from you!

onixsuite

The Ultimate Metadata Tool for Publishers, **Retailers, Authors, and Distributors**

Onixsuite is a cloud-based system that allows publishers, retailers, authors, and distributors to easily create, correct, enhance and distribute book metadata, all from within a web browser.

Accurate, reliable metadata consistent with the world-wide ONIX standard is the key to discovery, sales and data management efficiency. Onixsuite allows you- not a third party- to have control over your metadata and to create ONIX of superior quality tailored to the requirements of your trading partners.

Available in multiple languages, Onixsuite can be accessed anywhere with an internet connect from any device. Your team can work collaboratively, no matter where they might be located- saving your company time, effort and money.

Onixsuite even comes with a fully featured responsive catalog website or optional ecommerce site; ensuring constant, consistent metadata all the way down the supply chain.

Created by GiantChair Inc., Onixsuite has been developed to meet the needs of today's global publishing environment.

GiantChair offers a variety of metadata solutions for the industry, based around its Onixsuite software, from inexpensive off-the-shelf solutions to enterprise-level metadata management solutions, including data cleaning and optimization.

Access from anywhere: Onixsuite is in the cloud

Onixsuite's Metadata Scorecard

There's nothing else like it. Onixsuite's Scorecard allows full quality control of your entire metadata ecosystem, from general overview to the most specific detail.

Our Scorecard is based on solid industry standards and our priority view shows where best to apply your efforts. No more rejected files or cryptic exception reports- you know where issues are with pinpoint accuracy and can fix problems quickly, before they cause major headaches. If you don't have an existing ONIX file, don't worry. You can import your catalog data using our Excel template and start producing ONIX the same day.

Onixsuite's Scorecard: cleaning titles with the same errors

Catalog Management Made Easy

Onixsuite seamlessly integrates the Scorecard and its catalog management tool – no more endless importing and exporting of files, no more exchanges with third parties, no need to know ONIX. Whether you fix an error or add a format, all changes are sent automatically to each of your vendors, ensuring continuity and freeing up countless hours of labor.

Our catalog management tool is easy to use, stable, and efficient. Whether you have one or thousands of titles we can help streamline your workflow, even for complex issues like sales rights management and distributor information. Even if you distribute in many different markets and currencies, Onixsuite has you covered. And it all goes out in your ONIX.

TOTAL SCORE

No more wasted effort: Onixsuite's priority view lets you know where to best apply fixes and improvements so that your data gets better, faster
